

**FUELLING EXCELLENCE, REDEFINING
TRUST, YOUR GATEWAY TO RELIABILITY**

WHO WE ARE

BEST PICK General Trading LLC, founded in 2016 by Zayed Binjabara Al Marar in the bustling capital of the UAE, proudly serves as your reliable partner, offering premium oil and gas products alongside sustainable energy solutions. With a solid foundation and years of experience, Best Pick adheres to excellence in every aspect of its operations. Endorsed by the Supreme Petroleum Council, Best Pick guarantees the smooth procurement and delivery of industry-leading solutions.

More than just a name, Best Pick is a promise. With a glance, it evokes trust, expertise, and a determination to exceptional quality. Just like choosing the best option, partnering with Best Pick assures you of consistent energy solutions – a promise delivered at every step.

BEST PICK VISION

Best Pick envisions achieving global recognition as industry experts, leading not only in sustainable practices but also within the energy sector.

Our vision extends beyond profitability; it involves sourcing and supplying only the finest products and tailoring top-tier sustainable solutions.

Sustainability isn't just an element of our identity; it's integrated into every aspect of our business operations.

BEST PICK MISSION

At Best Pick, our mission is to be your preferred partner, delivering exceptional trading solutions globally.

We promise to provide high-quality products and services at competitive prices, building trusted partnerships. Guided by integrity, innovation, and reliability, our goal is to exceed your expectations, drive stakeholders' growth, and positively impact communities.

BEST PICK PILLARS OF EXCELLENCE

Best Pick endeavors to be at the forefront of sustainable business practices, spearheading innovative initiatives that prioritize environmental responsibility, social inclusiveness, and economic prosperity within the energy, oil, and gas sectors.

CERTIFICATIONS

Setting the standard for excellence, Best Pick stands out with its achievement of prestigious IMCD-recognized certifications in safety, quality, and sustainability.

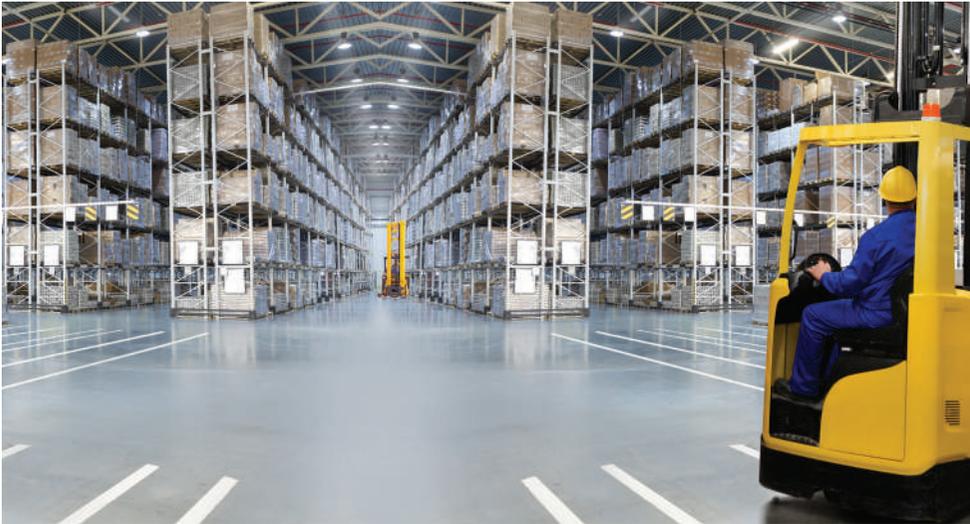

Holding **ISO 45001:2018**, **ISO 9001:2015**, and **ISO 14001:2015** certifications, we demonstrate our commitment to industry-leading practices. These accolades signify Best Pick's unwavering commitment to excellence and compliance with international standards across occupational health, safety, quality, and environmental management.

CHAIRMAN QUOTE

My vision is inspired by the unwavering spirit of UAE. As a leader, I strive not just for success, but for progress that echoes the visionary guidance of our nation's leaders. My journey isn't about grand gestures but about empowering the next generation and every individual to forge their own brighter future. At Best Pick, our dedication to sustainability stems from a strategic commitment to adopting solutions that propel our company forward. Embracing sustainability isn't just a trend for us; it is a core strategy to ensure a positive impact on the environment. This isn't about inheriting a future it's about actively shaping it. Every step we take, every challenge we overcome, is a promise of a brighter tomorrow. I am not just leading a company, I am contributing to our nation's progress with the collective hard work of my team of colleagues; who are determined to carve their own destiny.

Zayed Binjabara Al Marar - Founder and Owner

WHAT WE OFFER

OUR PRODUCTS

Explore Best Pick's products across a wide spectrum of categories within the energy, oil, and gas sector. From cutting-edge equipment to chemicals, lubricants, and other general products, each of our products is customized to meet the diverse requirements of our customers. Our commitment to excellence extends beyond customization to continuous improvement, ensuring that our products consistently meet and exceed customer expectations.

SUSTAINABLE SOLUTIONS

Best Pick leads the way in innovative sustainable solutions for the oil and gas, industrial, public, and private sectors, promoting a circular economy and environmental responsibility. Our services prioritize waste management, water treatment, upcycling, rare earth element recovery, and adaptable mobile solutions.

CHEMICALS

Whether it's emulsifying, demulsifying, or safeguarding your assets with scavengers and inhibitors, our partnership with global leaders in production chemicals guarantees a customized solution tailored to your needs. From boosting viscosity to minimizing drag.

Production

- Demulsifier
- Drag Reducer
- Biocides
- Scale Inhibitors
- Corrosion Inhibitor
- Anti-foam
- Drilling Lubes

Preservation

- Oxygen Scavenger
- Corrosion Inhibitors
- H₂S Scavenger

Chemicals

Water Treatment

- Biocides
- Corrosion Inhibitors
- Scale Inhibitors

Chemicals

CHEMICALS

Conventional or unconventional drilling, our expert team and strategic partners are equipped to handle any drilling challenge with a cutting-edge approach. Count on us for a seamless supply of drilling chemicals, ensuring smooth-running efficiency and optimizing your drilling performance.

Additives

- Viscosity Improvers
- Dyes
- Wetting & Dispersing Agents
- Stabilizers

Frac

- Proppants
- Friction Reducer
- Clay Stabilizer

Chemicals

- Silica Sand
- Demulsifier

Mud and

- Xanthan Gum
- Carbonates
- Barite

Brine

- Bromides
- Chlorides
- Bentonite
- Corrosion Inhibitors
- H₂S Scavenger
- Defoamers
- Lubes
- Biocides

MECHANICAL

Take your operations to new heights with our revolutionary valves and fittings solutions. Experience unparalleled efficiency and reliability as we redefine fluid control, guaranteeing a seamless flow in your processes. Trust us for superior quality and unparalleled performance with every valve purchase.

Valves &

- Gate
- Globe
- Needle

Fittings

- Check
- Control
- Ball
- DBB
- Butterfly
- Relief
- High Pressure Fittings
- Compression Fitting
- Pressure Valve

Drilling

- Drill Bits
- Stabilizers

Pumps

- Diaphragm Pumps
- Mud Pumps
- Pump Skids
- Submersible Pumps
- Centrifugal Pumps
- Gear Pumps
- Barrel Pumps

Gauges

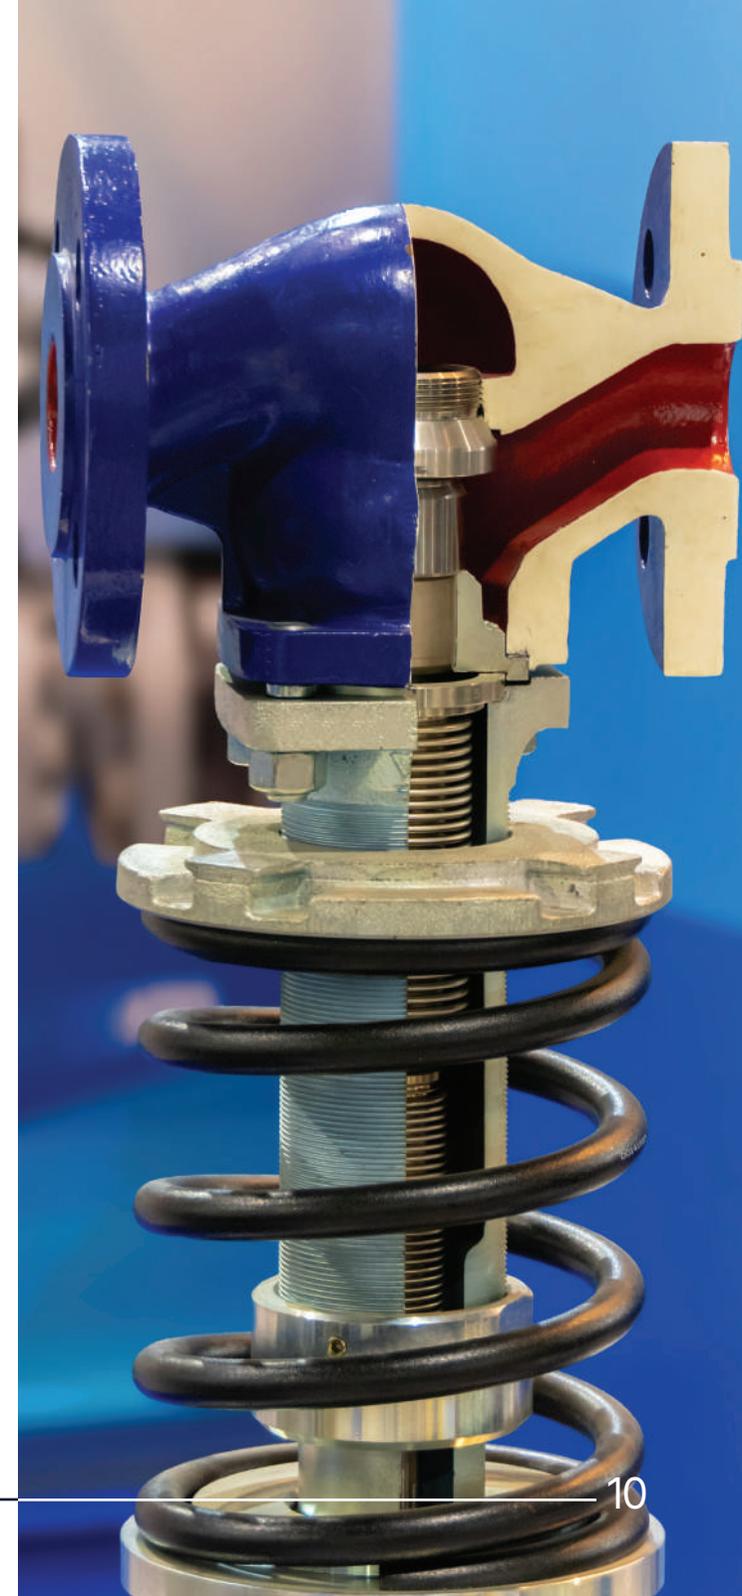

- Temperature Gauges
- Pressure Gauges

Electrical

- Switches
- Relays
- Boards

Spares

- Capacitors
- Breakers
- Wires
- Motors

MECHANICAL

We offer high-performance boilers, reactors, and heat exchangers meeting international standards for the chemical, petrochemical, industrial, and energy sectors, alongside precise and durable instrumentation solutions like flowmeters, indicators, and custom-built panels. Additionally, our high-quality pipes, produced through advanced techniques, ensure robust and reliable performance for various industrial applications.

Process	● Boilers	● Reactors	● Heat Exchangers
Equipments			
Instrumentation	● Flowmeters	● Indicators	● Instrument Panels
Pipes	● HFI Pipe Production	● HSAW Pipe Production	
	● LSAW Pipe Production	● SRM Pipe Production	
	● Flanges		
Cementing	● Centralizers	● Stop Collars	● Float Equipment
Accessories	● Plugs	● Cement Basket	● Drill Pipe
	● Scratcher		

PPE

Prevent workplace injuries, increase productivity, and maximize protection on the job with our comprehensive range of Personal Protective Equipment (PPE). From durable flame-resistant clothing to high-impact safety gear, our lineup ensures a robust defense against occupational hazards.

Body

- Coveralls
- Safety Boots
- Hazmat Suits
- Eye Protection Goggles
- Gloves
- Helmets
- Ear Muffs

Fire Blankets

- Type A & B
for Oil and Gas Use

Safety

- H2S Detectors
- Respiratory Protection

Equipment

- Fall Protection

GENERAL

Boost efficiency and impress your team with our high-performance kitchen equipment. Cater to any camp or company kitchen, from space-saving outdoor setups to high-output professional kitchens. Our selection includes energy-efficient cooking appliances, alongside durable kitchenware built to last.

Appliances & Equipment

- kitchen Appliances
- Kitchen Equipment

Gym Equipment

- Cardio Equipment & Strength Equipment

Office equipment & Electronics

- Office Furniture
- Printers
- Electrical Appliances
- Computers

HOSES

Discover the ultimate in durability and performance with our comprehensive range of hoses – from hydraulic and industrial to layflat options – all paired with premium fittings and accessories. Elevate your operations with solutions designed to meet the toughest demands.

Hydraulic

- EN 853 1SN
- EN 853 2SN

Hoses

- EN 856 4SP
- EN 856 4SH

Industrial

- Petroleum Suction & Delivery Hose
- Water Suction & Delivery Hose

Hoses

- Chemical Hose, Composite Hose
- Steam Hose, Air Hose

Stainless Steel

- High Temperature Applications
- Chemical Transfer

Hoses

- Low Temperature
Cryogenic Applications
- Industrial Gas Applications
& LPG transfer

Layflat

- Standard Duty Layflat Hose
- Medium Duty Layflat Hose

Hoses

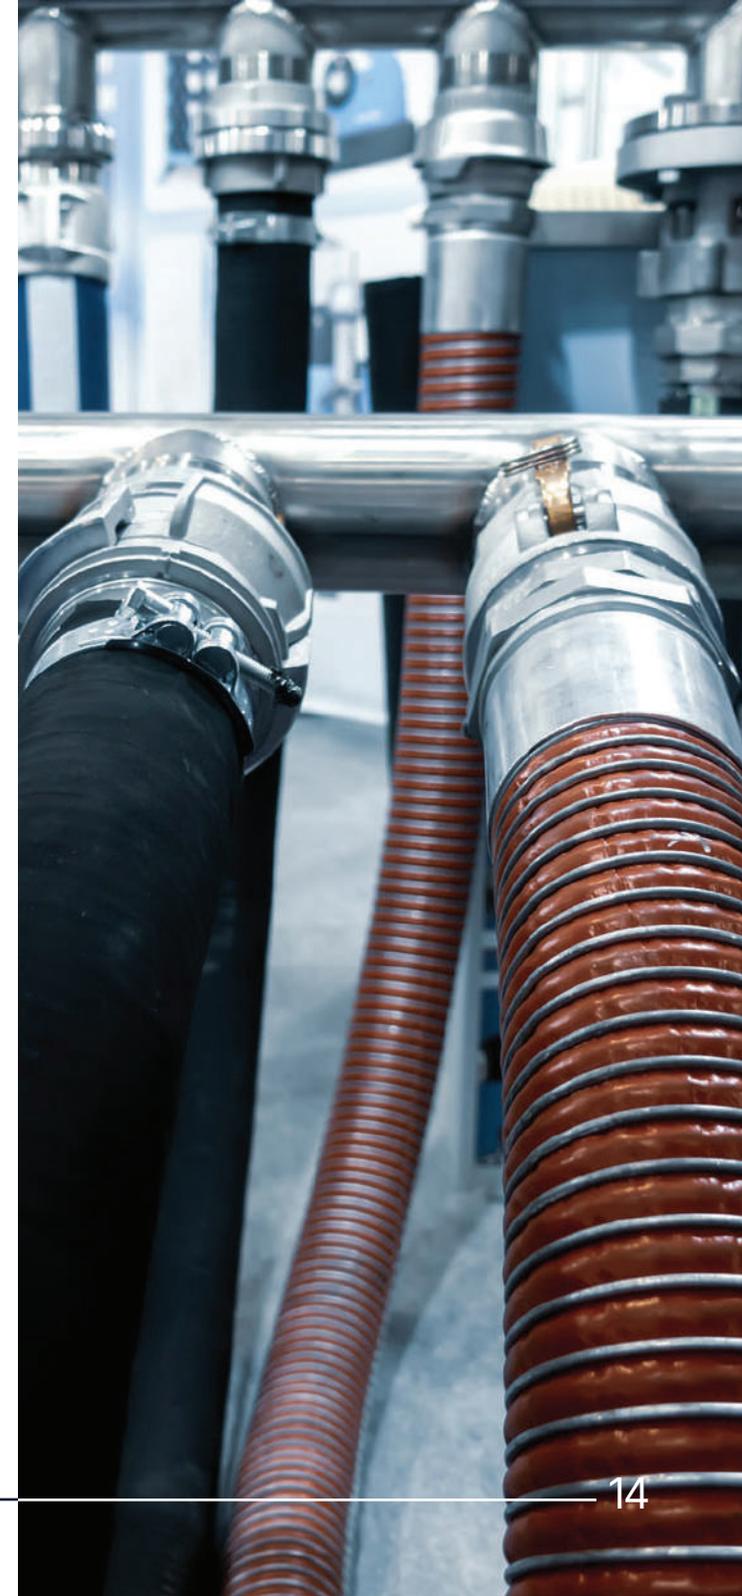

- Heavy Duty Layflat Hose

Fittings and

- Hammer Unions
- Dry Disconnect Couplings

Accessories

- Instrumentation Fittings
- Miller & Bauer Couplings
- Cam & Groove Couplings

SUSTAINABLE SOLUTIONS

WATER SOLUTIONS

CIRCULAR ECONOMY & END-OF-WASTE

OFF GRID SOLUTIONS

ADDITIVE MANUFACTURING & 3D PRINTING

WATER SOLUTIONS

AWG (Atmospheric Water Generation)

Break free from the water grid with our reliable, affordable air-to-water solutions, offering guaranteed uptime. With our customizable options, transform air into clean, usable water for drinking, irrigation, industrial processes, and more.

Mobile Water Treatment

Streamline your on-site drilling with our efficient mud treatment solutions. Our comprehensive processes for desanding, decanter, and centrifuge handle both oil-based and water-based drilling muds, effectively recovering water and reducing waste. Optimize operations, boost efficiency, and enhance environmental sustainability.

Tank Cleaning

Experience the difference, ensure safety, and enhance your tank cleaning with our specialized, ATEX-compliant industrial cleaning services. Our solutions meticulously recover water, reducing waste and environmental impact.

Dredging

sparkling clear water with our expert mobile dredging. Effortlessly remove tons of bottom mud from tanks, ponds, and lakes, while prioritizing water recovery and ensuring eco-friendly restoration for your aquatic spaces.

Oil-water Separation

Improve water purification with our powerful portable oil-contaminated water solutions. Our mobile unit efficiently removes oil from water, offering quick and adaptable solutions for environmental emergencies and industrial needs. Its versatile design handles diverse water sources and oil types.

CIRCULAR ECONOMY & END-OF-WASTE

Precious Metal Recovery from IT Waste (WEEE)

Unlock the potential of waste and discover the power of our cutting edge technology that sustainably recovers tons of precious metals from IT waste, batteries, and industrial slurry—preventing landfill disposal and securing critical resources for a greener future.

Sludge Treatment (Waste-to-Energy & HTC)

With our state-of-the-art technologies, we're spearheading a revolution in sewage sludge and biowaste treatment. By harnessing our sustainable methods, we generate more renewable biogas and hydrochar, recover phosphorus, reduce operational costs, and minimize environmental impact.

Plastic Upcycling

End plastic waste, drive progress, and revolutionize plastic recycling with our innovative process. Efficiently transform plastic into versatile polymers or pyrolysis oil, crafting a valuable secondary raw material for diverse industries.

Used Tires Chemical Treatment

Our innovative solutions transform used tires into fuel and top-notch regenerated lube, introducing high-quality Tire Derived Oil (TDO). Produce gallons of TDO per tire, a cleaner-burning, cost-effective alternative to traditional fuels.

Spent lube Oil Regeneration

Transform waste into opportunity with our patented technology that converts used oil into more high-purity, longer-lasting base oils, setting the bar for efficiency and environmental responsibility. Reduce waste, lower your carbon footprint, and contribute to a greener future.

Organic Composting

Boost your potential with our groundbreaking 24-hour organic digestion process. Craft top-tier fertilizers faster than traditional methods, nourishing your crops with essential nutrients for higher yields. Experience the future of farming with reduced costs and environmentally friendly practices.

OFF GRID SOLUTIONS

Mobile Incinerators

Transform waste management with our mobile incineration solutions. Our State-of-the-art technology offers sustainable on-site processing, eliminating transportation hassles and slashing costs. Embrace efficient and eco-friendly waste disposal tailored to your unique needs.

Self-contained Waste Water Evaporation System

Our units offer superior comfort and efficiency. Escape the noise and elements with our insulated, weather-resistant designs. Enjoy energy-saving features and customizable layouts to create your perfect off-grid haven.

Waterless Incinerating Toilet

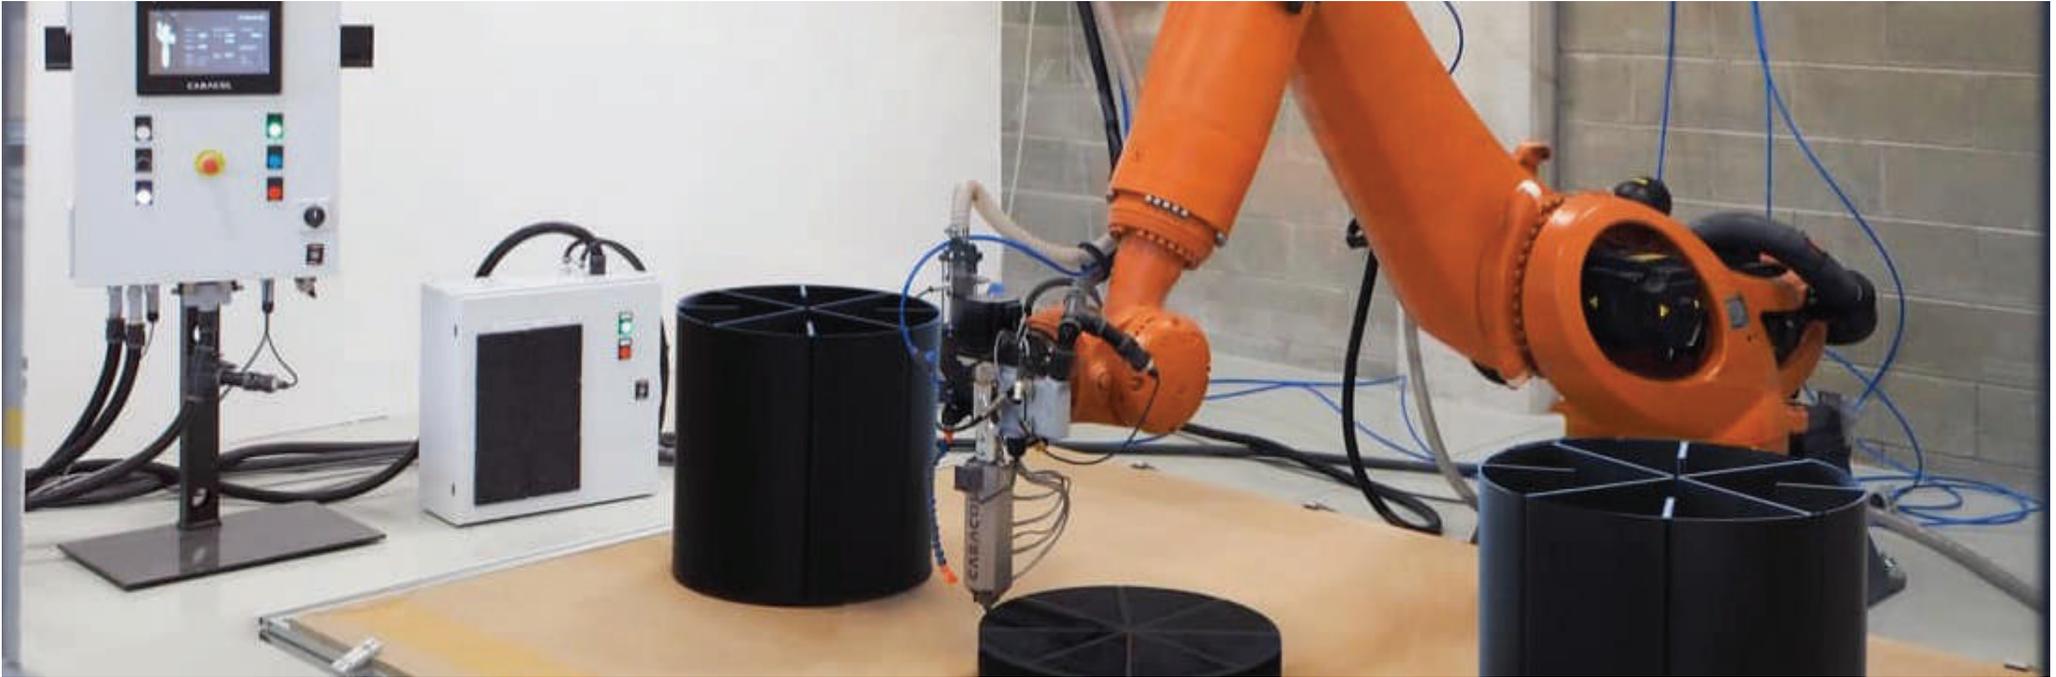

Live comfortably, efficiently, anywhere with our custom-designed modular units. Perfect for offshore workers, construction crews, military camps, glamping resorts, and more. We tailor each unit to your unique needs, from soundproofing offshore havens to maximizing space in construction zones, we've got you covered.

Organic Composting

Unlock the peak of composting efficiency and transform any organic waste into nutrient-rich, premium compost faster than traditional methods. Our customized solutions, from urban gardens to large farms, guarantee sustainable waste management that reduces landfill waste and boosts soil health.

ADDITIVE MANUFACTURING & 3D PRINTING

Sustainable 3D printing of large, complex components is possible thanks to our solution; integrated hardware and software platforms made for production, developed to address the most demanding manufacturing needs. We're expanding the potential of additive manufacturing to larger, more complex, industrial applications.
